

# JOHNEX explosives

## MEGASPLIT® Continuous Pre-split Product

### RECOMMENDATION FOR USE

1. Lay out explosives along line of drilled pre-split holes. Boxes should be laid out upside down.

4. Lower MEGASPLIT® product down the bore hole in a controlled manner.

2. Open box to expose base charge.

3. Withdraw base charge and feed down hole. Retain firm hold while feeding charge into hole.

6. Tie off knot (we recommend a double wrap clove hitch)

7. Cut off excess detonating cord.
